

TESS512 DATASHEET

INTERNAL AND EXTERNAL PERGOLA SYSTEM

Horizontal terrace and atrium shading without the bulky supporting structure.

The TESS 512 can cover up to 100m² with a single mechanism, leaving just slim support cables behind when retracted. Fixed to each end of the opening, no side-fixings are required. A practical solution for giant spaces where style, reliability and durability are all essential. A choice of flat or festooned fabric panels and unlimited colour finishes make it suitable for any project.

- Fabric panel system
- No side fixings required
- Slim support cables
- Motorised drive
- Reliable and robust
